CERTIFICATE OF VALIDATION

This is to certify that the Financial Health Score (FHS) formula and its supporting academic literature for the study entitled *"SmartSpend: An AI-Assisted Mobile Financial Tracking and Advisory Application for Personal Financial Management,"* prepared by **Directo, Brix A., Rubis, Cyrille John M., and Madayag, Djaunathan Albert S.**, BSIT students of Lorma Colleges, with the guidance of **Dr. Ellen F. Mangaoang, DIT**, research adviser, has been carefully reviewed, evaluated, and validated by the undersigned.

The FHS formula was assessed based on its relevance, academic grounding, accuracy, appropriateness, and alignment with established financial health measurement frameworks. The validator ensured that the formula components — Savings Rate, Overspend Control, Budget Adherence, and Logging Consistency — and their supporting literature are suitable for use as a prototype financial health indicator for the study's target population in San Fernando City, La Union.

After thorough evaluation, the Financial Health Score formula and its academic literature basis are hereby certified as valid and appropriate for use in the conduct of the study, subject to the revisions and recommendations provided, if any.

Issued this _____ day of _____, 2026.
