CONTENT VALIDATION FORM AND CERTIFICATE

Financial Health Score (FHS) Formula — Academic and Literature Basis

Name of Validator: _____

Educational Background: _____

(e.g., BS Commerce, BS Accountancy, MBA, or equivalent)

Present Occupation / Position: _____

(e.g., Business Owner, Financial Officer, Accountant, Faculty — Finance/Business, etc.)

Institution / Business: _____

Years of Experience: _____ years in financial management, business, or related field

Rating scale: 4 – Strongly Agree 3 – Agree 2 – Disagree 1 – Strongly Disagree

Criteria	4	3	2	1
1. The FHS formula components (Savings Rate, Overspend Control, Budget Adherence, Logging Consistency) are relevant and appropriate for measuring personal financial health behavior.	☐	☐	☐	☐
2. The academic literature cited (CBA–Melbourne Institute, FinHealth Score®, Warren & Tyagi 50/30/20 rule, Prospect Theory, Self-Determination Theory) adequately supports the design of the FHS formula.	☐	☐	☐	☐
3. The equal-weight design (25 points per component) is a defensible approach given the target population and the absence of longitudinal differential-weight data.	☐	☐	☐	☐
4. The FHS formula is appropriate for use as a prototype financial health indicator for Filipino parents (aged 35–55) and young professionals (aged 21–35) in La Union.	☐	☐	☐	☐
5. The FHS formula design is consistent with recognized financial management principles and is suitable for the study's academic purpose.	☐	☐	☐	☐

Comments and suggested revisions:

Overall recommendation:

- ☐ Valid and may be used as is
- ☐ Valid, subject to the revisions indicated above
- ☐ Not yet valid; major revision needed before use

Certification

I certify that I have reviewed the Financial Health Score (FHS) formula and its supporting academic literature for the study *"SmartSpend: An AI-Assisted Mobile Financial Tracking and Advisory Application for Personal Financial Management"* and that the ratings and comments above reflect my honest professional judgment.
