Certificate of Deployment and Memorandum of Agreement (Templates)

Team Lucid Frame · SmartSpend · Lorma Colleges

Use **one** of the two. A Certificate of Deployment is simpler. A MOA is more formal and fits a partner organization. Fill every bracket, remove this note, and only sign if the statements are true. Ask Sir Raposas or the adviser first whether Lorma requires its own format.

Before you hand it to the partner

1. Make sure every statement is true on the day it is signed. Don't claim a deployment or a user count that hasn't happened.
2. The number of participants in the certificate should match the real survey responses.
3. Print on clean bond paper with the organization's letterhead if they have one.
4. Keep one signed original plus a scan, and include a copy in the manuscript appendix if the panel asks.
